

October "OPEN" Trip

This month Mission Emanuel will be hosting our annual October "OPEN" trip Fall Project in Cielo. There will be participants from New Jersey, Illinois, Texas, Florida, Ohio and North Carolina coming to the Dominican Republic to pour out their hearts. This group will be split between working for the Rehabilitation Center of the Dominican Republic and construction projects. We are hoping to get another family into a house by the end of our January project!

As a staff, we are looking forward to visiting with Pedro and Theofila. This past summer two families with "help" from our Haitian masons built a bathroom with an actual shower, sink, and flushing toilet. They also painted the house a beautiful azul (blue).

Dominicans
Working Together**

Mission Emanuel is a model of cross-cultural spiritual transformation achieved through short-term missions focused on home-building, healthcare, sponsorship and leadership development

TO GOD BE THE
GLORY

Everyday while there, Daryl elicited something unusual from Theofila, a smile! God took the disdain from her face and produced joy through the actions and affections of these two families. Daryl, Kirsten and family took it a step farther and purchased a refrigerator for the couple. We went back the following week for a visit and they proudly showed off their cold water. They were excited that they not only could get purified water from our water purification plant but now they also received a way to make it cold! We look forward to a visit this October to see what else they discovered a use of the refrigerator for!

Mission Emanuel at The Gathering/USA,
