■ **BIG DEALS.** The 4,000 acres being turned into Hunter's Creek was one of the major land deals broker Maury L. Carter has been involved in over the years. A land broker and investor in Central Florida for 20 years, Carter recently headed a group that paid \$15 million for almost 5,800 acres off State Road 15 near Orlando International Airport in southeast Orange County. The property, known as the Lake Hart development, includes the site for the proposed headquarters for Campus Crusade for Christ. Other big deals involving Carter — he heads Maury L. Carter & Associates — include the \$35 million purchase of 7,000 acres in southeast Orange county in 1983. That tract is being developed as the Lake Nona project.
