## LSCC HONORS BENEFACTOR WITH SOUTH LAKE CAMPUS ROAD NAME

By Allison Crawford

At 5:30 p.m. on Feb. 26, Lake-Sumter Community College Board of Trustees held a reception in the higher education facility of the South Lake campus to honor the Maury Carter family for their great generosity.

The Carters have shown a great amount of generosity and support to LSCC, especially to the South Lake campus.

They helped the South Lake campus develop a community/college library, laboratory facility, professional softball complex, and proposed health sciences magnet school.

Maury Carter and his family contributed a lot of valuable acreage to make room for these new pieces of LSCC.

The Lake County School Board, National Training Center, Lake Hospital have also been a part of South Lake's new additions.

the Carters' donations, the District Board of Trustees has named the interior road of South Lake campus "Daryl M. Carter Boulevard."

Many people attended the reception, including citizens, government officials, and LSCC personnel.

A framed Resolution was given to Maury Carter and his son Daryl to acknowledge

their generosity in donating 40 acres of land to the South Lake campus.

The Carters also allowed more land to be available for purchase. Jon Simpson, LSCC board chairman, and Charles Mojock, school president, had the privilege of presenting them with the Resolution.

The Resolution stated, "Because of the Carters' gift, countless generations of students will find opportunities and education advantages at the South Lake

campus."

At the meeting, retired LSCC president Robert Westrick introduced all the community leaders who were also responsible for making the plans for the campus a reality. Throughout the meeting, discussion varied and entertaining stories were swapped.

Along with Maury and Daryl Carter were Elaine, (Maury's wife), Kirsten (Daryl's wife), and Daryl's three sons

Conrad, Luke, and Marshall. They all watched as college officials revealed the street sign reading "Daryl M. Carter Boulevard."

LSCC greatly appreciates the entire Carter family for their amount of generosity. They have given valuable land, thus saving time, in the improving of the South Lake campus.
