

SEPTEMBER 14-20, 2009

Construction

McCree General Contractors & Architects of Orlando completed construction on **Carter-Crossman Investments Ltd.'s** Orange Avenue Square, a multitenant retail center on the corner of South Orange Avenue and Page Street. McCree designed and built the 7,000 square-foot retail center utilizing a patented pre-cast wall system that allowed them to finish construction in four months. This \$1.3 million new shell building has two of its three tenant spaces leased, including **Solantic Urgent Care** and **Jimmy Johns Gourmet Sandwiches**. . . .
