Adventist Lake Nona

Adventist Health, the parent company of Florida hospital, has inked a new purchase of land in the Lake Nona area.

The new deed, recorded Friday, says Adventist purchased 6724 acres at 10999 Narcoossee Road, just east of the intersection with Lake Nona Boulevard, from the Daryl M Carter Trust. The property is just north of State Road 417. The sale price was \$8 million.

About 10 acres is a lake or wetlands, and more is considered agricultural waste property.

Lake Nona's Medical City complex has been expanding in recent years, but this year suffered a blow when Sanford Burnham Prebys Research Institute said it would close its Florida operations.

Adventist already has a Florida Hospital Health Park in Lake Nona, which is just south of the new land purchase, located within the glass Gateway Medical building on the corner of Narcoossee Road and Tavistock Lakes Blvd.

Adventist Health System has 46 hospital campuses with over 8,300 licensed beds in 10 states.
