DESCRIPTION

Located in Florida's Heartland, the Lake Wales Ridge has historically been one of the top locales in the country to grow oranges. This property offers **highly productive planting and diverse varieties throughout**, including approximately 150 acres of Valencias, 66 acres of Hamlins, 5 acres of Navels, and 10 acres of Pineapples. The property has an abundance of water with a total of 10 wells ranging in size from 6 to 8 inches. This grove is not encumbered by a fruit contract, allowing a potential buyer to capitalize on the attractive pricing for oranges in today's citrus market. Given the grove's size and infrastructure, it makes a great stand-alone farm or a nice addition to an existing citrus portfolio. A ride through the grove is testament to this farmer's excellent stewardship principles. **Call today for a showing of one of the most well-maintained groves in the Sunshine State!**
